Riding the mega ramps at lake ronix and events like Red Bull Rising High really made me want to design one myself and I'm more than stoked that Shape Obstacles gave me the chance to do so.

No more knee or back pain after hitting kickers to the flats all day. With this ramp you can boost of a kicker with a smooth landing every lap. It's designed for all riders amateurs to pros. From just riding over it to big sendy tricks. Everyone can have a good time on it.
